

Assistant Director for Operations

10 September 1951

Chief, FBIID

Progress Report for August 1951

ADMINISTRATION

1. Reclassification of all positions in the Editorial Branch of FBIID has been completed. Only the engineering and technical positions are yet to be regraded by Classification and Wage Administration.

2. The relocation of the Reproduction Section of Administrative Services Division has resulted in some deterioration in messenger service and an increased time lag between typing and final reproduction. The Administrative Services Division is aware of these deficiencies and efforts are being made to correct them.

3. A British Landrover was delivered to the Mediterranean Bureau on 10 August. A 20-passenger bus for Cyprus is due to arrive about 15 September.

4. The project for additional construction at the Chinese Bureau has been passed by OO and sent to the Project Review Committee for approval.

5. In line with established and continuing arrangements, two additional groups of personnel from OAS were oriented in FBIID operations.

6. Eighty-five of 88 items covered by the emergency station equipment project have been delivered to the [redacted] 50X1
Delivery of the remaining items will be expedited in September. One hundred and four of 505 items in the original stockpiling project have been delivered to [redacted] 50X1
All undelivered items are on order. Delivery of all items will not be effected until early 1952.

7. The Chief, Special Reports Branch, gave a presentation to the training class of Training Division (covert) on FBIID operations.

OPERATIONS

8. A reception test [redacted] 50X1
California, is scheduled for latter September.

SE

9. There has been no change in the status of the project re the proposed establishment of a monitoring station [redacted] as reported in last month's Progress Report.

50X1

10. A report was prepared for IED of State Department which included a list of all medium wave stations in the Far East between 900 and 1300 kcs with their power, other pertinent data, as well as suggestions for possible channels for two VOA medium wave transmitters to be used for broadcasting to the Far East from Okinawa and Luzon.

11. OPC has suggested FBID consider the establishment of a research section at the Saigon Bureau to do analysis of Indochinese material for counter-psychological warfare purposes. Under the proposed arrangement, OPC has suggested FBID Saigon Bureau would work in close conjunction with OPC personnel in that area.

12. A reception survey test from several sites [redacted] was begun late in August and will be completed late in September.

EDITORIAL

13. A new procedure has been established for use of the Flexoline in the Technical Information Unit and in major field bureaus. The new system will allow field bureaus to submit such new names and data to the Department by teletype for approval as they consider appropriate for inclusion in the Flexoline. Field bureaus have been supplied with Flexoline strips which can be prepared locally for insertion. III processing of this material has been discarded as much too slow for efficiency.

14. Progress is being made on the compilation of a series of publications listing all long, medium and shortwave broadcasting stations of the world according to country and city and by frequency. These publications, which will be released near the end of the year, will also list ownership, power output and slogans of all foreign broadcasting stations.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Deputy Assistant Director for Operations

DATE: 15 August 1951

FROM : Chief, FBID

SUBJECT: FBID Operational Information Report (Statistical)

REF : FBID Progress Report for July 1951, Attachment 1, Section II

1. It has been observed that the statistical report, referenced above, is burdensome to FBID field bureaus. The information contained in this report has no immediate or continuing value and could be produced for special purposes as required without keeping the data currently. It is further believed that the summary of the reference report contains the type of information which lends itself most readily to monthly reporting and this can be produced without undue expenditure of time and effort.

2. It is recommended that future FBID progress reports contain only the Summary of the Operational Information Report (page 12 of the reference).
